1.	This report is the international preliminary examination report, established by this International Preliminary Examining Authority under Article 35 and transmitted to the applicant according to Article 36.							
2.	This REPORT consists of a total of	6 sheets, i	including this cover sheet.					
3.	This report is also accompanied by A	NNEXES, comprising:						
	a. (sent to the applicant and	l to the International Bureau) a total of	sheets, as follows:					
	a (sent to the applicant and to the International Bureau) a total of sheets, as follows: sheets of the description, claims and/or drawings which have been amended and are the basis for this report and/or sheets containing rectifications authorized by this Authority (see Rule 70.16 and Section 607 of the Administrative Instructions).							
	sheets which supersede earlier sheets, but which this Authority considers contain an amendment that goes beyond the disclosure in the international application as filed, as indicated in item 4 of Box No. I and the Supplemental Box.							
	b. (sent to the International Bureau only) a total of (indicate type and number of electronic carrier(s))							
			, containing a sequence listing and/or tables					
	related thereto, in compute Section 802 of the Adminis	·	e Supplemental Box Relating to Sequence Listing (see					
4.	This report contains indications relat	ing to the following items:						
	Box No. I Basis of the	e report						
	Box No. II Priority							
	Box No. III Non-establ	ishment of opinion with regard to novelty	y, inventive step and industrial applicability					
	Box No. IV Lack of uni	ty of invention						
	Box No. V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement							
	Box No. VI Certain doo	cuments cited						
	Box No. VII Certain def	ects in the international application						
	Box No. VIII Certain obs	servations on the international application	1					
Date of a	submission of the demand	Date of completi	on of this report

INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

International application No.
PCT/JP2005/002185

With regard to the language, this report is based on the international application in the language in which if was filed, unless otherwise inducted under this identification. This report is based on translations from the original language into the following which is the language of a translation furnished for the jumposes of: International search (Rule 12.3 and 23.(b))	indicated under this item. This report is based on translations from the original language into the following which is the language of a translation furnished for the purposes of: international search (Rule 12.3 and 23.1(b)) publication of the international application (Rule 12.4) international preliminary examination (Rule 55.2 and/or 55.3) With regard to the elements of the international application, this report is based on (replacement sheets which have been furnished to receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexal this report): the international application as originally filed/furnished						
which is the language of a translation furnished for the purposes of: international search (Role 12.3 and 25.1(b)) publication of the international application (Role 12.4) international peliminary examination (Role 55.2 and/or 55.3) 2. With regard to the elements of the international application, this report is based on (replacement shorts which have been furnished to the restring Office in response to an interliation under Acticle 14 am reformal or in this report as "originally filed" and are not annoved to this superity. the international application as originally filed/furnished the description: pages	which is the language of a translation furnished for the purposes of: international search (Rule 12.3 and 23.1(b)) publication of the international application (Rule 12.4) international preliminary examination (Rule 55.2 and/or 55.3) With regard to the elements of the international application, this report is based on (replacement sheets which have been furnished to receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexe this report): the international application as originally filed/furnished						
international search (Rule 12.3 and 23.1(b)) publication of the international application (Rule 12.4) international preliminary examination (Rule 55.2 and/or 55.5) 2. With regard to be elements of the international application is proportionally fixed in reviewe to an initiation under Article 14 are referred to in this report as "originally fixed" and are not numesed to bits report). the international application as originally fixed/furnished	international search (Rule 12.3 and 23.1(b)) publication of the international application (Rule 12.4) international preliminary examination (Rule 55.2 and/or 55.3) With regard to the elements of the international application, this report is based on (replacement sheets which have been furnished to receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexe this report): the international application as originally filed/furnished	This report is based on translations from the original language into the following,					
publication of the international application (Role 12.4) international preliminary examination (Role 12.4) international preliminary examination (Role 15.5)	publication of the international application (Rule 12.4) international preliminary examination (Rule 55.2 and/or 55.3) With regard to the elements of the international application, this report is based on (replacement sheets which have been furnished to receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexative this report): the international application as originally filed/furnished						
international preliminary examination (Rule 55.2 and/or 55.3) With regard to the elements of the international application, this report is based on (replacement sheets which have been furnished to the receiving Office in regionse to an invitation under Article 14 are referred to in this report as *originally filed* and are not annexed to this report): the international application as originally filed/furnished the description: pages 1-4, 8, 19, 20 pages* 5, 5/1, 6, 6/1, 7, 9 received by this Authority on 13 September 2005 pages* 0. 13, 13, 16-18 as amended (together with any statement) under Article 19 nos.* 1, 7, 8, 12, 14, 15, 19 received by this Authority on 13 September 2005 nos.* received by this Authority on 13 September 2005 the drawings: sheets Fig. 1-12 sheets* received by this Authority on 25 September 2005 sheets* received by this Authority on 3 September 2005 the drawings: sheets Fig. 1-12 sheets* received by this Authority on 3 September 2005 a sequence listing and/or any related table(s) – see Supplemental Box Relating to Sequence Listing. The amendments have resulted in the cancellation of: the description, pages the claims, nos. the drawings, sheets/figs the sequence listing (specify): any table(s) related to sequence listing (specify): This report has been established as if (some of) the amendments annexed to this report and listed below had not been made, since the description, pages the claims, nos. the drawings, sheets/figs the description, pages the claims, nos. the drawings, sheets/figs the description, pages the claims, nos. the drawings, sheets/figs the description, pages the claims, nos. the drawings, sheets/figs the sequence listing (specify):	international preliminary examination (Rule 55.2 and/or 55.3) With regard to the elements of the international application, this report is based on (replacement sheets which have been furnished to receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexe this report): the international application as originally filed/furnished						
2. With regard to the elements of the international application, this report is based on (replacement sheets which have been furnished to the necessing Office is response to an invitation and/or Article 14 are referred to in this report as "miginally filed" and are not associated to this report as "miginally filed" and are not associated to the description:	2. With regard to the elements of the international application, this report is based on (replacement sheets which have been furnished to receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexe this report): The international application as originally filed/furnished						
received by this Authority on as originally filed/furnished	receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexe this report): the international application as originally filed/furnished

	Inventive step (IS)	Claims		YES
		Claims	1-34	NO
	Industrial applicability (IA)	Claims	1-34	YES
		Claims		NO

- 2. Citations and explanations (Rule 70.7)
 - Document 1: JP 08-250366 A (Toshiba Corporation), 27
 September 1996, entire text; all drawings
 - Document 2: JP 2003-218428 A (Alps Electric Co., Ltd.), 31 July 2003, paragraphs [0069] and [0070]; fig. 2 & US 2003-137785 A
 - Document 3: JP 07-147437 A (Toshiba Corporation), 6 June 1995, entire text
 - Document 4: WO 02/069356 A (Claudia Felser), 6 September 2002, entire text & US 2004-114283 A & EP 1382046 A & CN 1526146 A & DE 10157172 A & DE 10108760 A

Claims 1 to 3, 5 to 10, 12 to 17, 19 to 24, 26 to 31, 33 and 34

Document 1 sets forth a Heusler alloy represented by the general formula X2YZ, wherein copper, cobalt or the like is used as element X, manganese, iron or the like is used as element Y, and aluminum, gallium or the like is used as element Z; chromium, niobium, tantalum, iron or the like is used as the substrate of a Heusler alloy; a film is grown at a substrate temperature of room temperature or 150°; in prior art a thin film was formed using a Heusler alloy composition, and heated to around

Box No. V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

250°; and a MgO (100) substrate is used.

Document 4 newly cited in the International Preliminary Report on Patentability sets forth a feature wherein Co2Cr0.6Fe0.4Al or Co2Cr0.6Fe0.4Ga or the like is used as a Heusler alloy represented by the general formula X2YZ.

Document 2 sets forth a feature wherein the crystalline structure of a Co2MnZ (where Z is one or more elements selected from aluminum, silicon, gallium, germanium or tin) Heusler alloy is an L2 structure.

In addition, in a Heusler alloy represented by general formula X2YZ, it would be easy for a person skilled in the art to set the specific composition ratio of a Heusler alloy set forth in document 1 to the composition ratio set forth in document 4, and the crystalline structure is an L2 structure in the same way as the Heusler alloy set forth in document 2, therefore it would be easy for a person skilled in the art to conceive of said invention.

Claims 4, 11, 18, 25 and 32

Document 3 sets forth a feature wherein a Heusler alloy layer (2) represented by the general formula X2MnZ is formed on an MgO (100) single crystal layer (1).

Moreover, in a Heusler alloy represented by the general formula X2YZ, it would be easy for a person skilled in the art to conceive of applying the inventions set forth in documents 2 and 4 as an alternative to the MgO (100) substrate set forth in document 1, and to have the MgO (100) single crystal substrate of the invention set forth in document 3 serve as a substrate.
